Hi Gary,
I'd really like to talk about tools available through our SF Reuse Program that could benefit this City and community surrounded by the CES site. Please let me know when's a good time.
Thanks much,
Casey

Hi Ronnie . . . I keep hearing more and more about this site. I think are some real opportunities for the SF Reuse to provide tools to help move this site into a beneficial reuse once its clean. BTW – I'm the R6 SF Reuse Coordinator, along with my RPM job ☺
I don't often hear form OSCs about their removal sites but this one just keeps jumping out at me as something we need to look at partnering on for the City and community.
Saw this in an article just today:

Frustrated by the pace of the cleanup,
Jones and her neighbors are urging the

9855435

city to purchase the Griggs Road property and to pay for the removal of all existing structures. City officials then can decide an appropriate future use for the site, possibly as a park or a housing development, the residents say.

Who should I talk to??

Thanks much,

Casey
